Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Receipt is acknowledged of a response filed 03/15/2005. Claims 24 and 25 are under consideration in this action. It is noted that Terminal Disclaimers have been filed and approved, over US Patent No. 6,773,914 and US Application No. 10/101,840. Therefore, claim 24 is allowed.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 03/15/2005 has been entered, canceling claims 20-23 and adding new claim 25.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 25 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement.

The claim contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Art Unit: 1636

Claim 25 part *b* recites the phrase, ““wherein said cassette includes a fluorescent protein and is operatively linked to a *Drosophila melangoster* polyubiquitin gene... ”. Furthermore, claim 25, part *c* recites the phrase, “polyubiquitin gene operatively linked to said marker cassette”. Therefore new claim 25 is drawn to the cassette or cassette including a fluorescent protein “operatively linked” to the polyubiquitin gene; this embodiment constitutes **NEW MATTER** because the embodiment does not find support in the specification. Indeed, as stated above, claim 24 and the specification teach that the cassette is operatively linked to a specific noncoding region of the *D. melanogaster* polyubiquitin gene – i.e., polyubiquitin promoter. (e.g., Specification, p. 14, ¶ 0040).

Conclusion

Claim 24 is allowed. Claim 25 is rejected.
